Redley to Explain Coal Prices.

Hedley to Explain Coal Prices.

Frank Hedley, president of the Interborough Rapid Transit Company, will resume the witness chair at his own request to explain the apparent discrepancy in prices paid for coal by his own company and the B. R. T. There was testimony to show that, though both corporations bought from the same whelesale coal dealers, the Brooklyn lines were paying an average of 42 cents a ton less for their fuel than the Interborough. When Mr. Hedley was examined list week he was unable to explain the difference. It is understood he has dis-

covered that the B. R. T. burned in its power houses, in part, anthracito screenings, a cheaper grade of hard coal, thus accounting for a yearly difference of about \$332,000.

Another phase of the Interborough's finance is likely to be reopened before the end of the week. It will be recalled as one of the episodes of last week's evidence that when the banking house of J. P. Morgan & Co. in 1918 undertook to market the \$49,000,000 interborough 7 per cent, notes it silpulated as a condition of the agreement that no more interborough dividends in excess of 9 per condition of the agreement that no more interborough dividends in excess of 9 per condition of the agreement that no more interborough dividends in excess of 9 per condition of the agreement that no more interborough and agreement that no more interborough dividends in excess of 9 per condition of the agreement that no more interborough and agreement that no more interborough dividends in excess of 9 per condition of the agreement that no more interborough dividends in excess of 9 per condition of the agreement that no more interborough and agreement that no more interborough of 259 McNeill avenue, inwood, L. INQUIRY TO RESUME W. S. Menden, general manager, and Landley M. Garrison, receiver, will be witnesses. The B. R. T. beard of directors is not to remain exempt from interrogation. Nicholas F. Brady, chairman of the beard, and Col. Timothy S. Will-of the beard of the bear of the board, and Col. Timethy S. Williams, president of the company before the receivership and a member of its board of directors, have been invited to appear for examination, but as yere the interborough directors, who last week declined to sign immunity waivers and therefore were dismissed.

From such study as Mr. Shearn has

been abla to give to the minute books and accounts of the B. R. T., it is not expected to yield such sensational reve-lations as are jeft in the trail of the Interborough. The Brooklyn company's 6 per cent. dividend in 1917, however, is per cent dividend in 1917, however, is orticised in some quarters, because at the time it was voted, it is held, the managers of the read should have been able to see that mounting wartime prices and wages soon would make extraordi-nary demands on their surplus, which was down at the time to not more than about \$10,000,000.
